#### Notes:

1. Data up to 12 February 2018 includes young people aged 10-16 years at time of offence, then from 12 February 2018 due to legislative changes, includes young people aged 10-17 years at time of offence.
  2. Due to differences in counting rules and definitions, this data should not be directly compared with other youth justice data contained in published reports prepared by external agencies (e.g. AIHW, ROGS).
  3. COVID-19 restrictions began in March 2020, and any effects of this on Youth Justice data are yet to be determined.
  4. Values may not sum to total due to rounding.
- a. The proportion is calculated by dividing the number of successfully completed conditional bail programs (CBPs) by the number of CBPs completed. A CBP is counted as successful when the order end reason is: bail varied or young person sentenced. A CBP is counted as unsuccessful when the order end reason is: bail revoked.
- b. "Other" refers to young people who do not identify as Aboriginal or Torres Strait Islander or whose Aboriginal or Torres Strait Islander status was unknown or not specified.
- c. Data for admissions to a CBP is based on the financial year the order began. If a young person receives more than one CBP at the same court appearance, only one CBP is counted.
- d. Population data up to and including 2017-18 are based on young people aged 10-16 years; and population data starting from 2018-19 are based on young people aged 10-17 years.

- "Other" refers to the non-Indigenous population figures, derived by subtracting the Aboriginal and Torres Strait Islander population figures from the total population figures.
